UP TO 98% AFUE MODELS

33-inch Modulating Gas Furnaces

**FRASER-JOHNSTON®**  
Heating ■ Air Conditioning

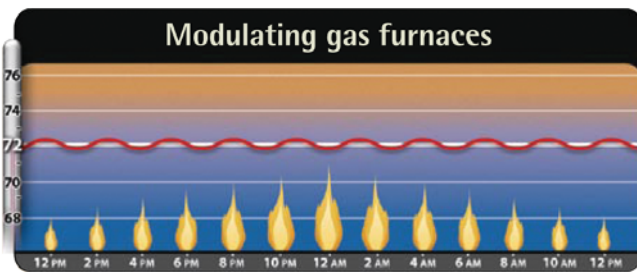

- ▶ Compact 33-inch cabinet easily fits in tight spaces
- ▶ Multi-position design – all configurations supported
- ▶ Up to 98% models include patent pending condensate removal system – requiring no external traps
- ▶ Sealed doors reduce air leakage under 1%

- ▶ Double folded edges – for added protection
- ▶ Up to 98% AFUE rated models are ENERGY STAR® qualified
- ▶ Blower motor and control box is conveniently located on a slide out support track
- ▶ Doors are same size – easy to rotate as required by installation

## Heating Performance That Hits Your Comfort Level.

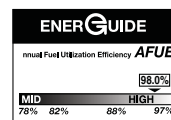

Your home can experience drastic temperature fluctuations. The Fraser-Johnston® modulating gas furnace better matches your comfort level by varying the heating rate continuously and precisely. Understanding the differences between furnace types will help you choose what's most comfortable for you and your family.

The Fraser-Johnston modulating gas furnace maintains your ideal temperature by modulating in one-percent increments. You'll feel a difference with our precision temperature control feature, and benefit from better energy efficiency and quieter operation.

## Greater Care For Your Indoor Air.

These models feature an ECM fan motor which circulates air for longer periods at a fraction of the cost. Longer run times mean fewer hot and cold spots and longer periods of air filtering, resulting in cleaner and more comfortable air. Plus, fewer starts and stops make variable speed models 24 times less noisy than conventional furnaces.

AFUE model meets ENERGY STAR® requirements for energy efficiency.

## A System That's Built to Last.

Fraser-Johnston backs every system with one of the industry's best limited warranties. Every 98% AFUE model gas furnace is backed with a lifetime limited warranty on the heat exchanger. These models come with a 10-year limited warranty on parts. Must be registered online within 90 days of installation otherwise the parts warranty reverts to a 5-year limited parts warranty.
